

Panel Analysis of Intimate Relationships and Family Dynamics

# Call for Papers

## International User Conference of the German Family Panel pairfam 2019

Conference date: May 16<sup>th</sup> & 17<sup>th</sup>, 2019

Proposal submission deadline: February 7<sup>th</sup>, 2019

Conference venue: University of Cologne, Germany

The sixth international pairfam User Conference will be held in Cologne on May 16<sup>th</sup> and 17<sup>th</sup>, 2019. We invite submissions from national and international researchers from all disciplines on any topic utilizing data from the German Family Panel pairfam. The conference will be held in English.

The goals of the pairfam User Conference are to provide both new and experienced researchers a forum in which to present preliminary results, receive comments and feedback from experienced pairfam data users and staff, and to facilitate future collaborations.

Interested researchers are invited to submit an abstract for a paper or a poster presentation by email to [hank@wiso.uni-koeln.de](mailto:hank@wiso.uni-koeln.de). Abstracts should be no longer than one page in length, and must include the title of the paper or poster and the names, email addresses, and institutional affiliations of all authors.

The submission deadline is February 7<sup>th</sup>, 2019. Each proposal will go through a review process, and acceptance notifications will be communicated by February 28<sup>th</sup>, 2019. Depending on the number of submissions, the reviewer team might assign some submissions to a poster session.

There will be no conference fee, and travel costs cannot be reimbursed. A preliminary program and further information on next year's conference will be provided promptly.

**The best conference presentation will be selected by a jury and awarded with 400 €, sponsored by Kantar Public.**
